Version history

Version	Date	Change	Effect on findings
1.0	September 25, 2026	Original issued public edition.	Initial publication.
1.0.1	September 25, 2026	Corrected the date of Participant Zero's written records request to HSS from June 30, 2026 to July 1, 2026. The event was removed from the review-period chronology and relocated to the Subsequent Events appendix because it occurred one day after the review period closed.	No findings, verification determinations, recommendations, or substantive conclusions changed.

Correction record - Version 1.0.1

Field corrected	Date and review-period classification of the HSS records request.
Incorrect entry	June 30, 2026 - treated as occurring within the annual review period.
Correct entry	July 1, 2026 - classified as a subsequent event after the June 30, 2026 cutoff.
Sections updated	Review-period chronology; source register entry; Appendix E - Subsequent Events After June 30, 2026.
Correction basis	Author verification of the underlying correspondence timestamp.
Materiality	Editorial/date-classification correction only. The underlying correspondence remains part of the documentary record, but it is no longer represented as a review-period event.

Publication-control note

Version 1.0 remains part of HAA's historical distribution record. Version 1.0.1 supersedes Version 1.0 for current citation, publication, and archival use. HAA does not silently overwrite substantive publication history; corrections are logged so readers can identify what changed and whether the change affected the report's determinations.
