HAA-2026-001 | Version and Correction Log

Current edition: Version 1.0.2 | October 14, 2026

Version 1.0 — Original issued edition

Original publication and distribution record. The Annual Compliance Review was published September 26, 2026.

Version 1.0.1 — September 25, 2026

Corrected the date of Participant Zero's written HSS records request from June 30 to July 1, 2026. The July 1 event was moved from the review-period chronology to Appendix E, Subsequent Events After June 30, 2026. No findings, verification determinations, recommendations, or substantive conclusions changed.

Version 1.0.2 — October 14, 2026

Page 10: Corrected the description of the HOPWA termination-review safeguard to specify that a reviewer must not have made or approved the termination decision and must not be subordinate to the person who did (24 CFR 574.310(e)(2)(ii)(B)).

Page 14: Replaced an inconsistent internal source designation with the public Appendix D code CASE-04.

Page 36: Corrected 'routs' to 'routes' in the consolidated chronology.

Pages 3 and 12: Made non-substantive editorial clarifications for readability.

PDF metadata: Removed stale 2013 XMP dates and refreshed the descriptive PDF metadata.

Effect: No findings, verification determinations, recommendations, or substantive case conclusions changed. The 42-page document remains the public-interest documentary review, not a governmental audit or legal determination.

Publication control: Versions 1.0 and 1.0.1 remain part of the historical record. Version 1.0.2 supersedes both for current citation and download. Corrections are recorded rather than silently overwritten.
